

**MISSION & GOALS**

*Purpose of the organization*

**Mission:** To work collaboratively with communities and landowners to develop and implement voluntary watershed restoration, enhancement, and community engagement activities that promote healthy and resilient ecosystems and economies in the Coquille watershed.

**Goals**

1. Evaluate watershed conditions and lessons learned through monitoring and assessment projects.
2. Implement win-win restoration projects that improve water quality, habitats, and working landscapes.
3. Be a community resource for watershed science and local challenges and promote stewardship practices.

**PEOPLE**

*Carry out the mission of the organization*

**Active Members:** Non-voting members of the organization that support the mission and pay dues.

**Board of Directors:** 12 to 21 voting, active members that represent diverse stakeholders in the watershed including timber, agriculture, tourism, fishing, conservationists, schools, cities & community members. Members direct the organization by participating on committees, assisting in strategic planning, voting on policies, and voting on proposed projects and programs. Voting is consensus based.

**Executive Committee:** Subset of Board Members that serve as oversight for the organization. Members include President, Vice Pres., Treasurer, Secretary, Officer at Large, Past Pres. and Resource Advisor.

**CoqWA Executive Director**

**CoqWA Staff**

**Technical Advisors:** Non-members that provide input and technical guidance to the Board of Directors and staff (generally, they are agency representatives such as water quality specialists, biologists, farm planners, etc.)

**Committees:** ~3 to 10 people (Board members, staff, technical advisors, other individuals as needed). Crucial aspect to living our mission and accomplishing goals.

**Project Steering Committee** provides technical advice on watershed assessment, monitoring, and project prioritization, development, and implementation.

**Finance Committee** assists in the annual operating budget, examines monthly reports, assists in audits, advises on financial policies and procedures.

**Outreach and Education Committee** assists in identifying and implementing outreach initiatives to promote and teach watershed stewardship to all ages

**Other Committees** as designated by the Board of Directors.
